

POPE JOHN PAUL II'S

Theology of the Body

No pope ever wrote as deeply, or as much, on human love as has John Paul II. The outcome of his reflections, the theology of the body, is God's wonderful providence for our time. Pope John Paul II presents us with this new vision-which, insofar as it is an unfolding of biblical truths, is not really new. The pope says, in effect, that there is something glorious in God's plan for human love and sexuality, though not in the way the world understand it. And the all-important but often undervalued key to unlocking this plan is the human *body*.

The treasure of Pope John Paul II's Theology of the Body is for everyone: man, woman, child, youth, single, married, and celibate. And St. Mary Magdalen would like to invite you, the adult faithful, into a deeper look of this great message!
